

Century's RFID Business

May 2025

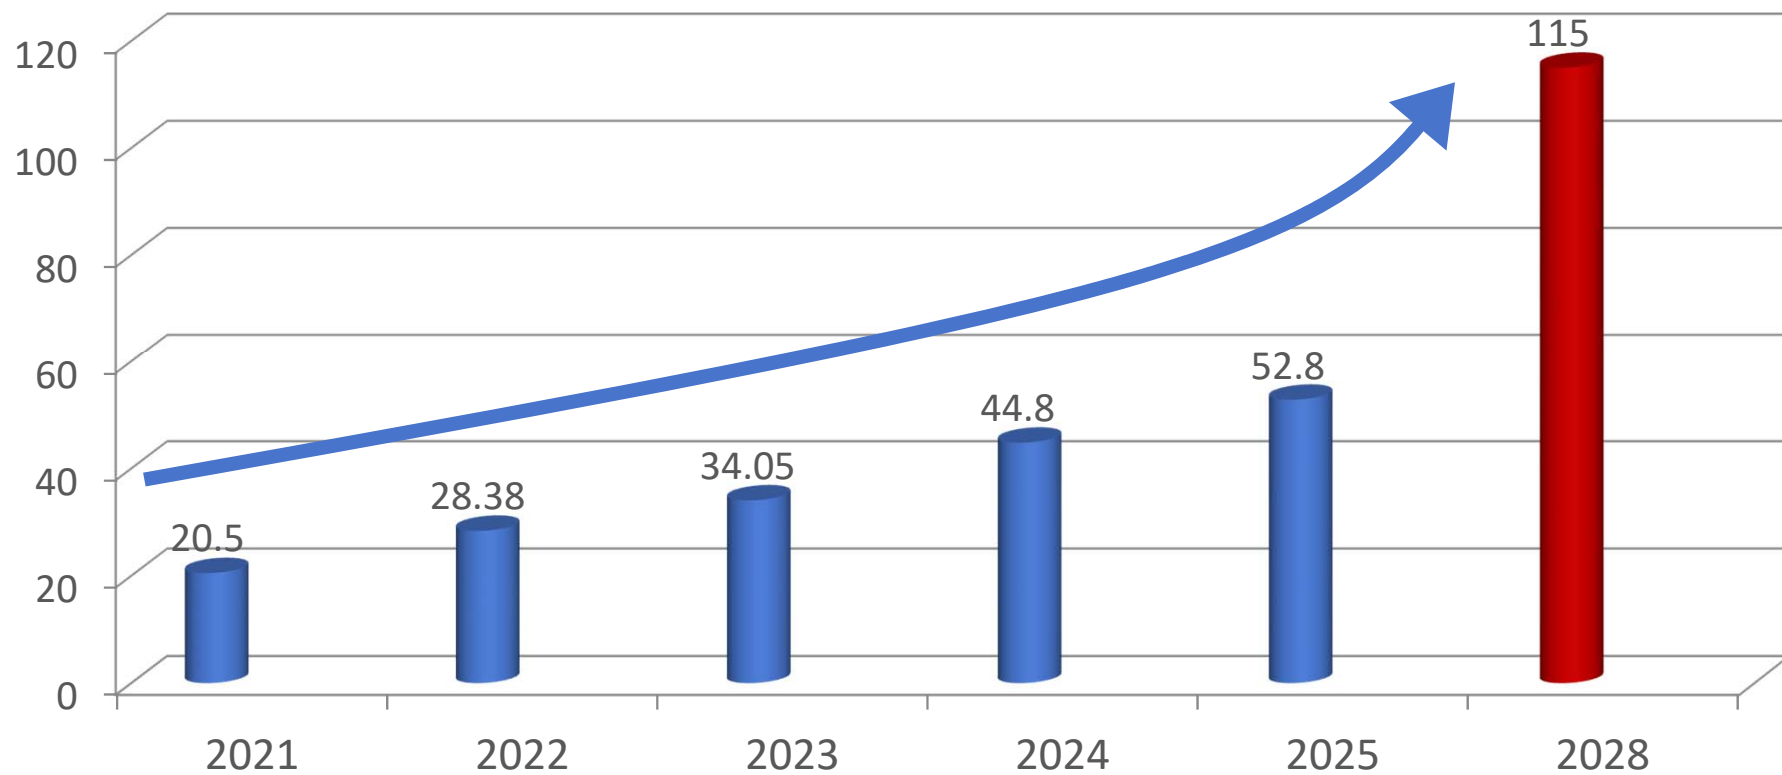

CONTENTS

- 01** RFID in General
- 02** Century's RFID Business
- 03** Yangzhou & Wenzhou Base
- 04** RFID Product Introduction
- 05** RFID Selection 101

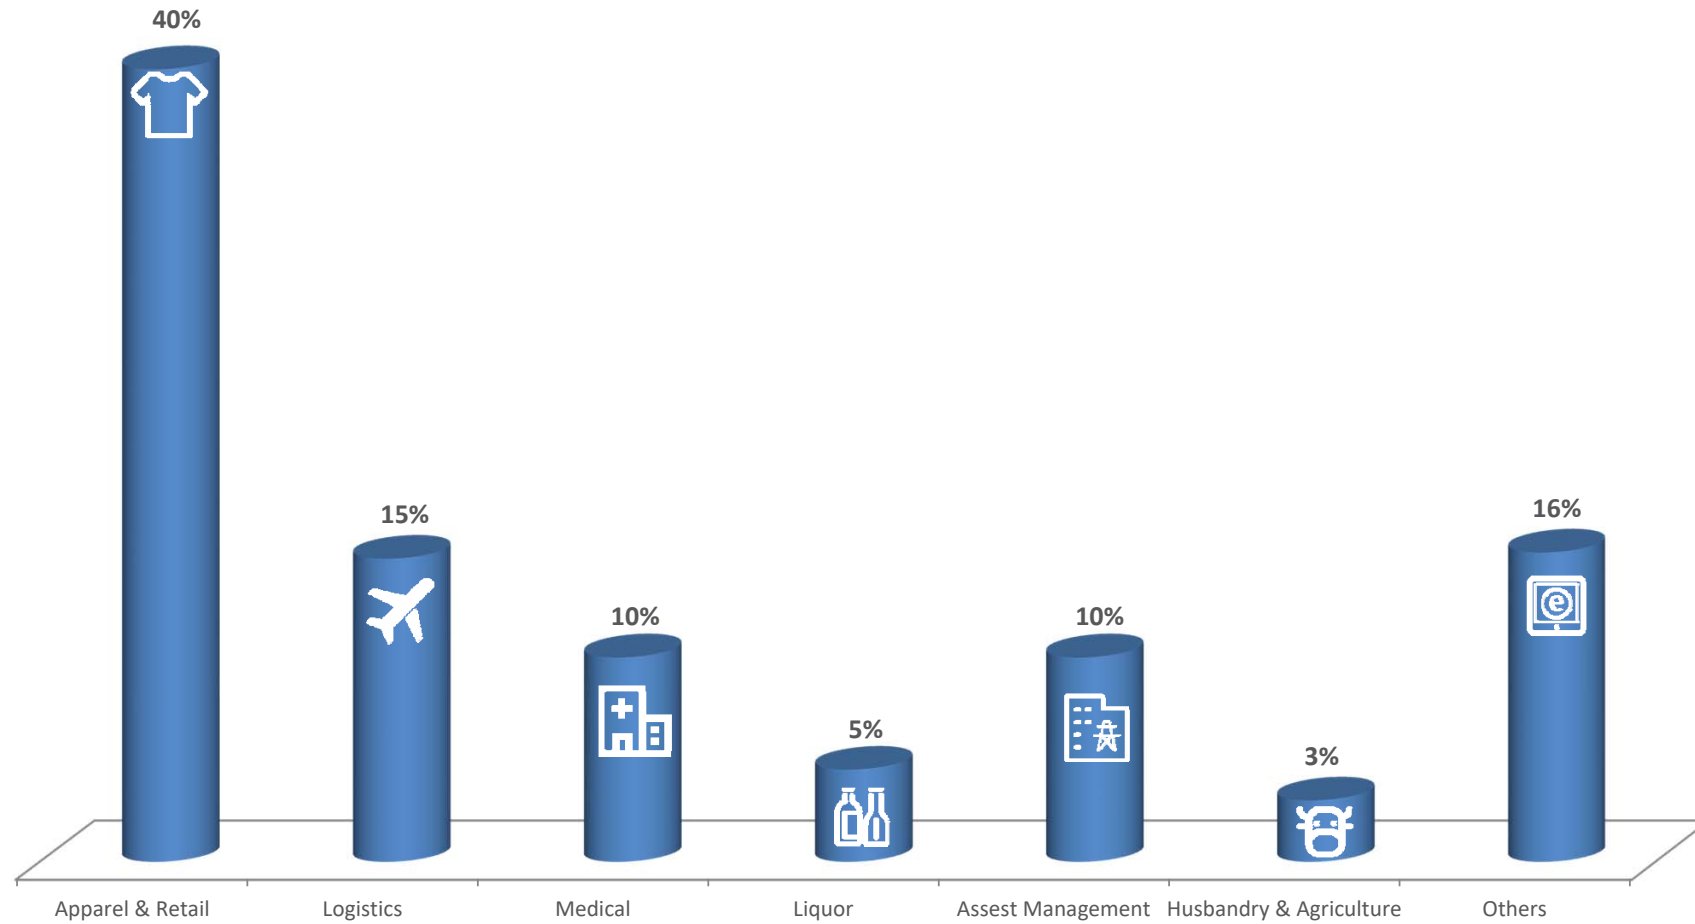

Global RFID Volume

Tag IC Volume (Billion)

Data Collected by RAIN 2021-2025

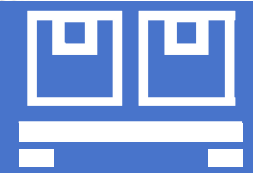

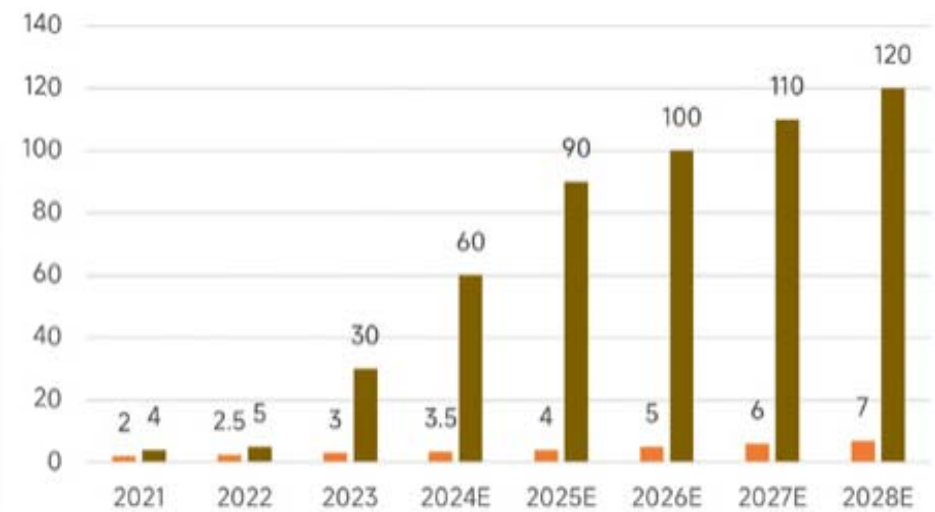

A Typical RFID Market Breakdown

Industry – Logistics

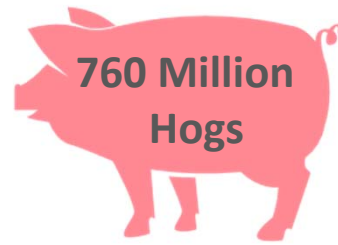

RFID Tags Volume in Logistics (100 M)

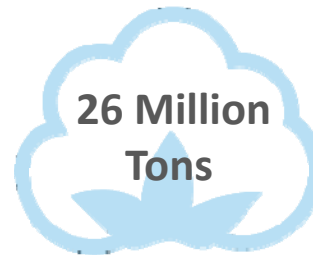

Industry – Animal Husbandry & Agriculture

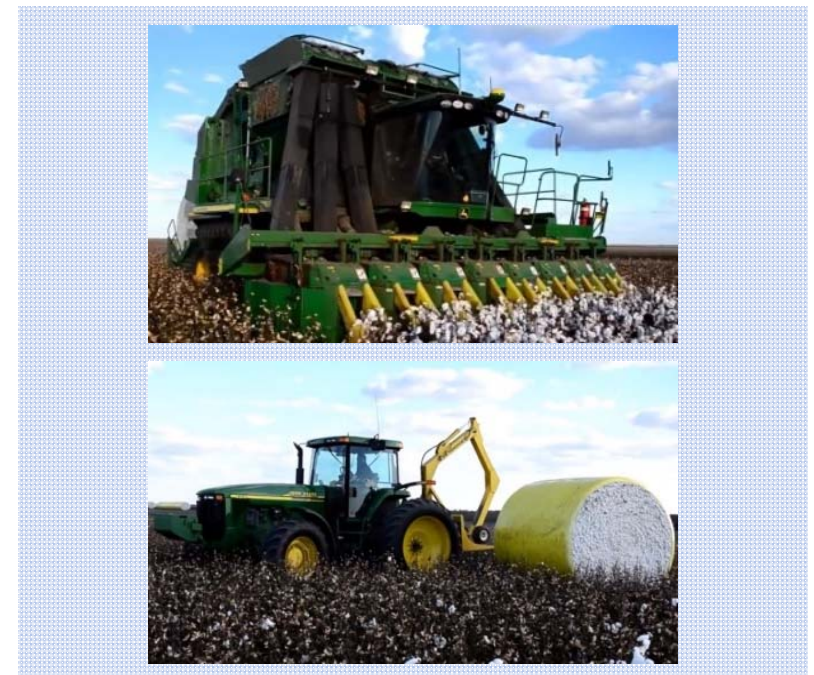

Animal Husbandry

Per Year

Agriculture

Industry – Medical

- ❑ Medicine
- ❑ Biological Reagent
- ❑ Blood Product
- ❑ Vaccine
- ❑ Gene Product

Medicine Management

Real-time Traceability
Stock Control

Patient Management

e-prescription
Identity Control

Medical Consumables

Unmanned Cabinet
Auto-counting

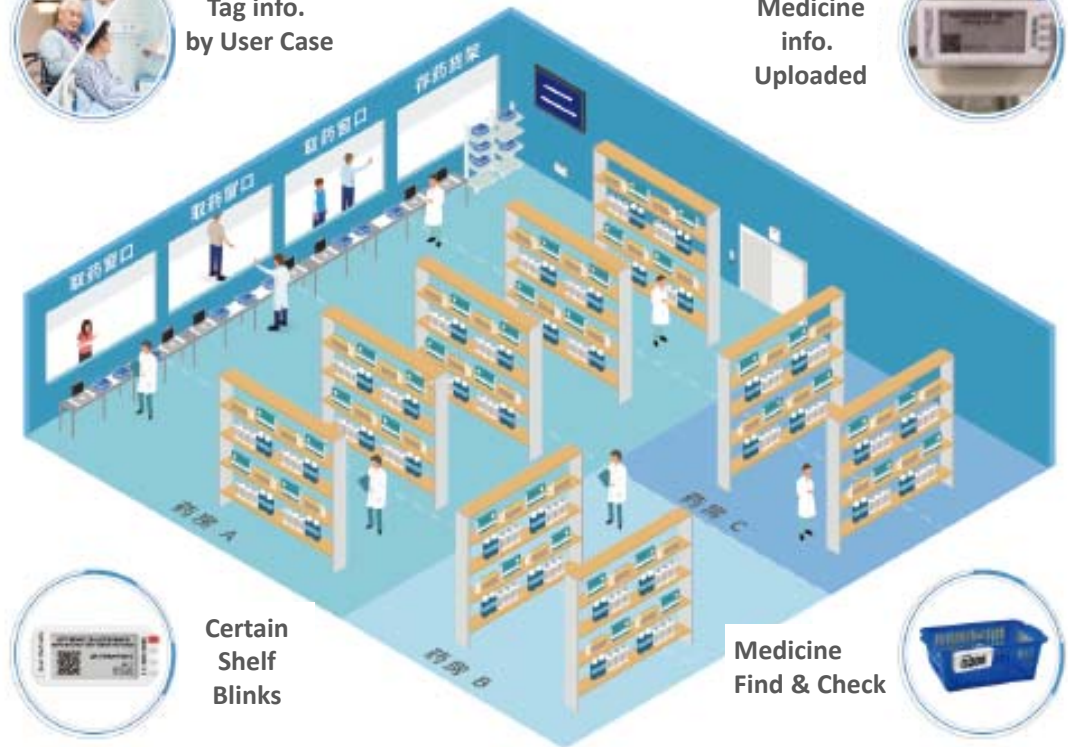

CUHK Medical Center Smart Pharmacy

Find & Check

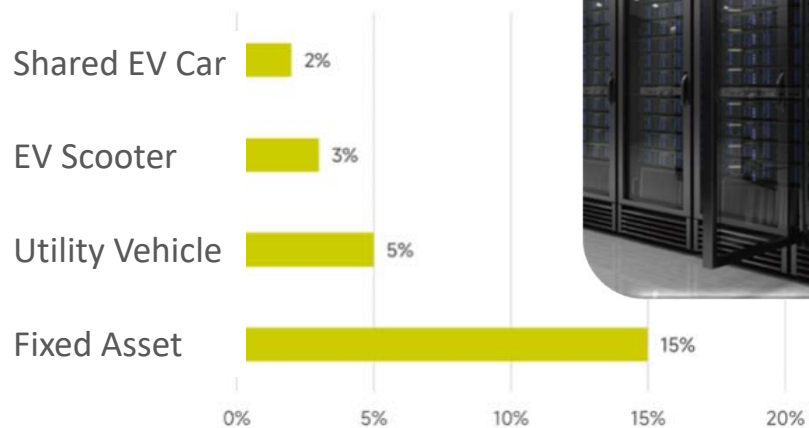

Industry – Anti-Counterfeiting

Market Volume of China's Anti-Counterfeiting Labels
(100 million)

Industry – Asset Management

RFID tags are widely adopted in asset management.

Tagged Rate of Asset Management in China

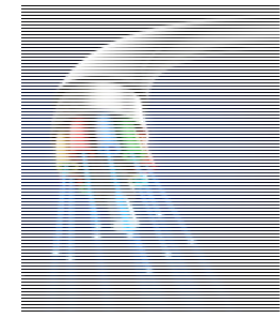

Electricity Meter

Smart meters are thoroughly applied in China to monitor energy consumption remotely.

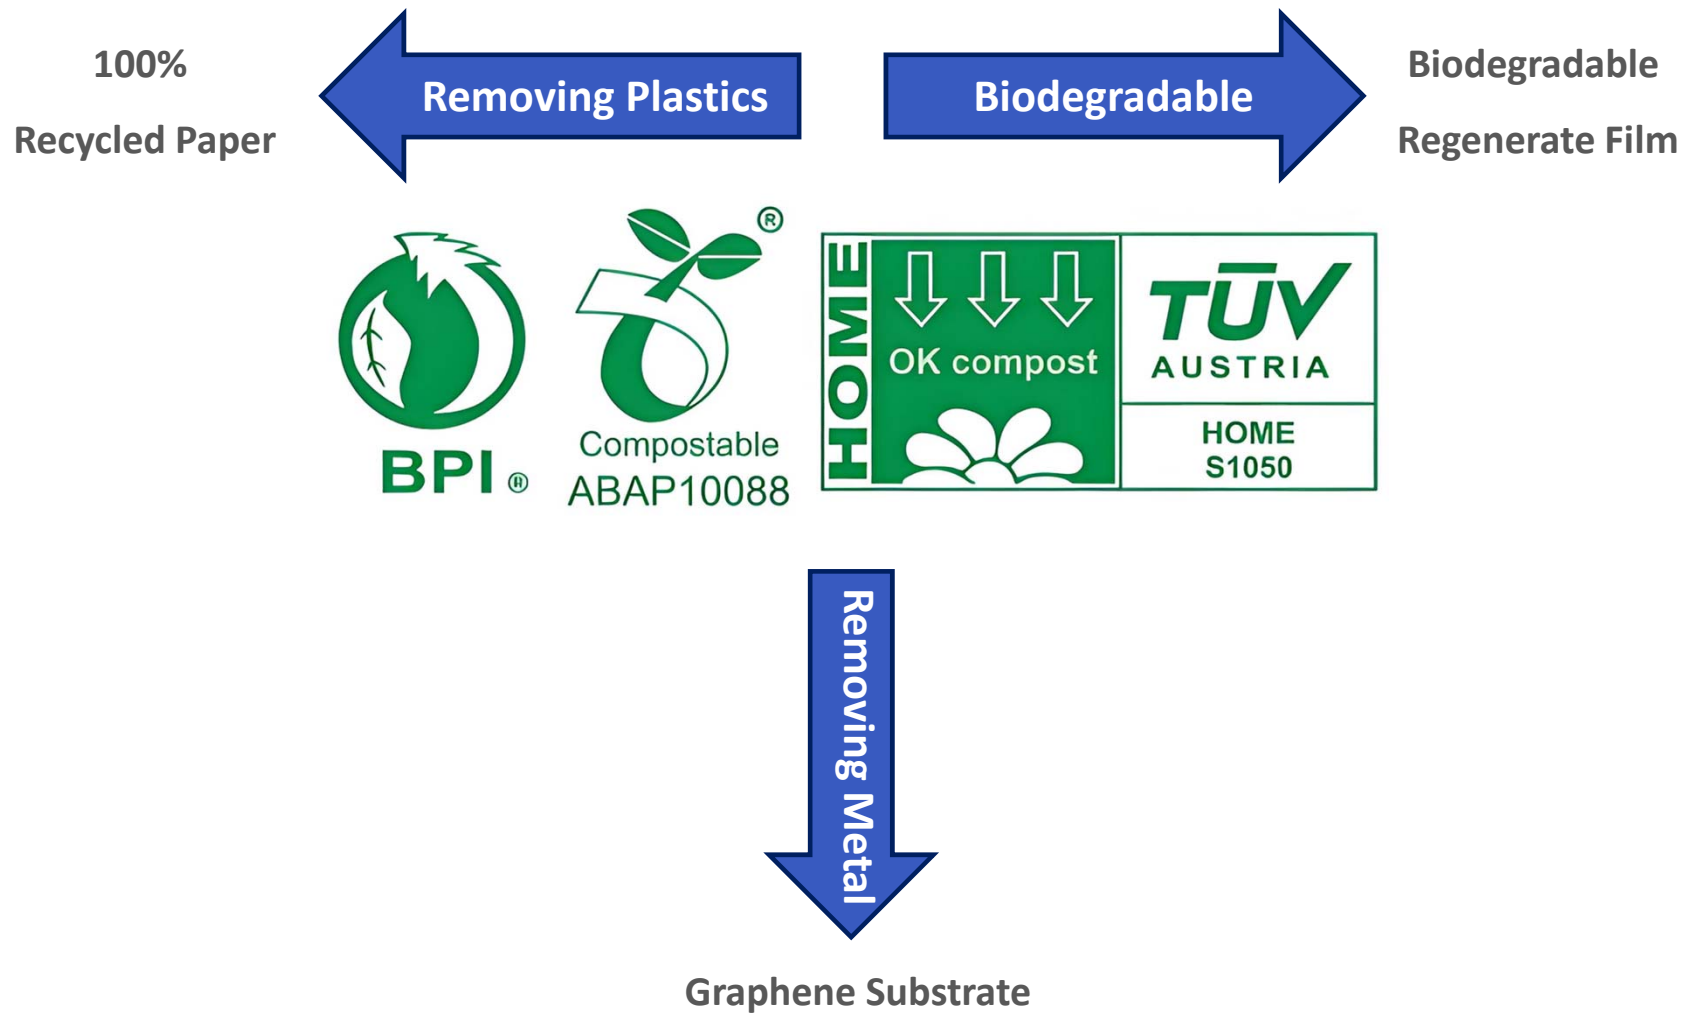

Telecom Cable

Cable management with RFID is one of the latest application promoted by China's top three telecom providers.

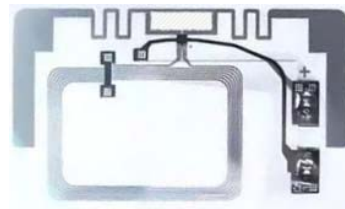

Evolution on the Way

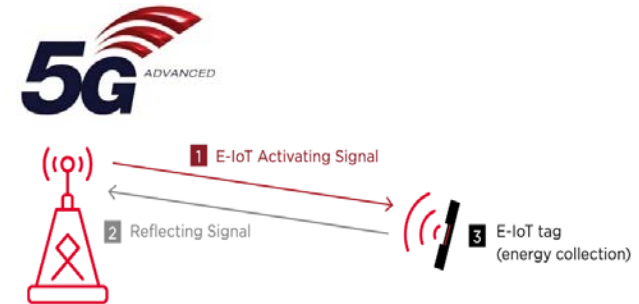

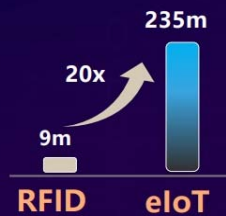

Evolution on the Way

RFID Plus

+ Bluetooth, Battery, etc.

E-IoT coverage: 20X

Century's RFID Core Abilities

Focused

- 3.0 Billion annual capacity.
- All-rounded RFID product portfolio.
- Always dedicated to manufacturing of RFID inlay and tag.

Reliable

- Desktop and handheld MES.
- In-line multi-point weak tag screening.
- In-line AOI installed for precise bonding & converting.

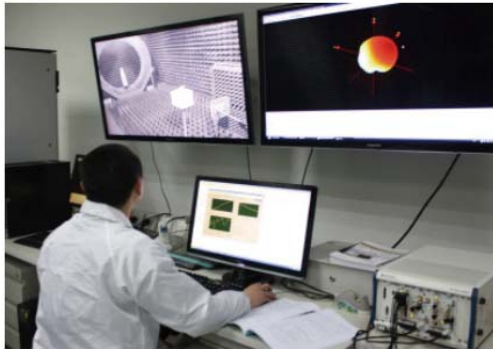

Agile

- Innovation on materials and process.
- Fast product customization .
- Experienced tech-support.

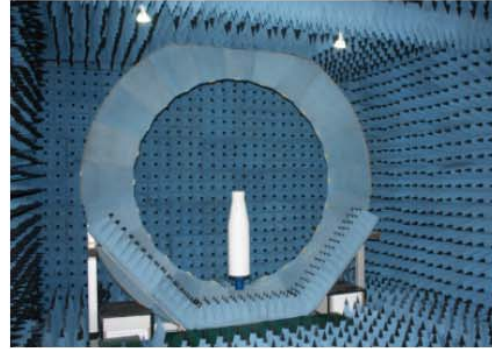

OEM & ODM Services

Process	Standard Timeframe	Rapid Timeframe
Customer Requirement & Feasibility Evaluation	1 Week	1 Week
Antenna Design & Prototype	3 Weeks	2 Weeks
Molds and Tools	3 Weeks for inlay 40-50 days for plastic housing	2 Weeks for inlay 30-40 days for plastic housing
Pilot Production	2 Weeks 1K-5K pcs	1 Week 1K-5K pcs
Mass Production	Per Customer Requirement	Per Customer Requirement

Best Quality RFID Products

Wide array of patented antenna designs to meet any performance requirements.

Design verification tested for performance, conformity and environmental adaptability.

Engineering verification tested for production feasibility and stability.

100% performance consistency testing before final delivery.

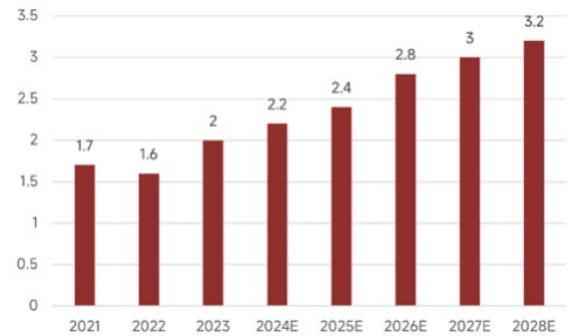

Strict quality control throughout the production process to deliver a reliable and consistent product.

Mass production verification tested for yield and productivity to ensure continuous capacity.

Century Application – Airline Luggage

65 Million
in
2024

Airline Luggage Tag Volume in China (100 M)

~30%
Share in
China

Century Application – Animal Husbandry

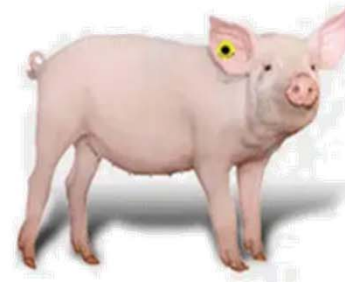

10 Million
in 2024

China
Top 3

Phi25_U9

- ❑ Designed for cattle
- ❑ Fitting the ear tag injection molding process

Century Application – Blood Product Management

Full Process Control

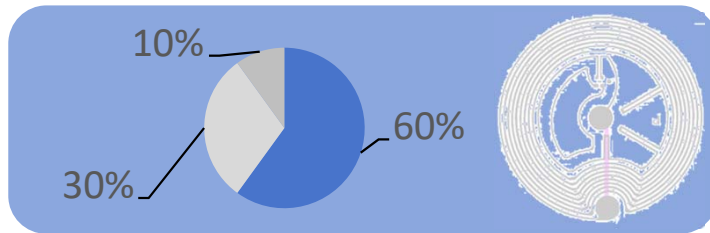

10 Million
in 2024

China
Top 1

- ❑ X & γ ray resistant
- ❑ Shower resistant
- ❑ Supports -80 °C storage

Century Application – Liquor

- ☐ Vertically attached
- ☐ NFC-enabled
- ☐ Tamper-proof

DIAGEO

Century Application – Mute Resources Management

03x06

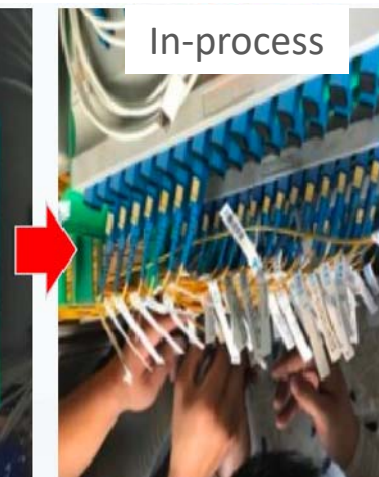

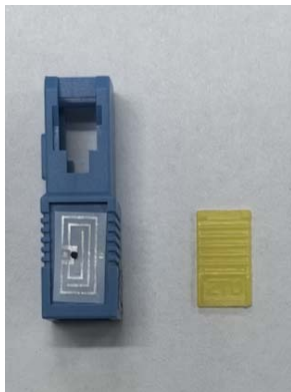

04x07

05x07

- Read range up to 5 cm.
- One sided or double sided design.
- Cost-effective solution for the verification, testing, and information collection of optical cable mute resources accumulated by operators over a long period of time.

Yangzhou Base: R&D and Production

- Established in Dec. 2012
- Capital investment US\$26M
- Turnover \$30 million in 2024
- Employees 200, Engineers 50+
- Delivered 12 billion RFID inlays

Yangzhou Base: Machines & Capacity

Muehlbauer Bonders	Monthly Capacity	Annual Capacity
TAL 15K x 12 FCM 10K x 2 DDA 40K x 1	125 Million	1.5 Billion

Converters	Monthly Capacity	Annual Capacity
Bielomatik T-165 x 1 Bielomatik TTL-165 x 1 Muehlbauer CL60K x 3	125 Million	1.5 Billion

Yangzhou Base: Workshop

Wenzhou Base: RFID Volume Production

Bonding

18 Machines

1.5 Billion

Converting

5 Machines

1.5 Billion

Encoding

3 Machines

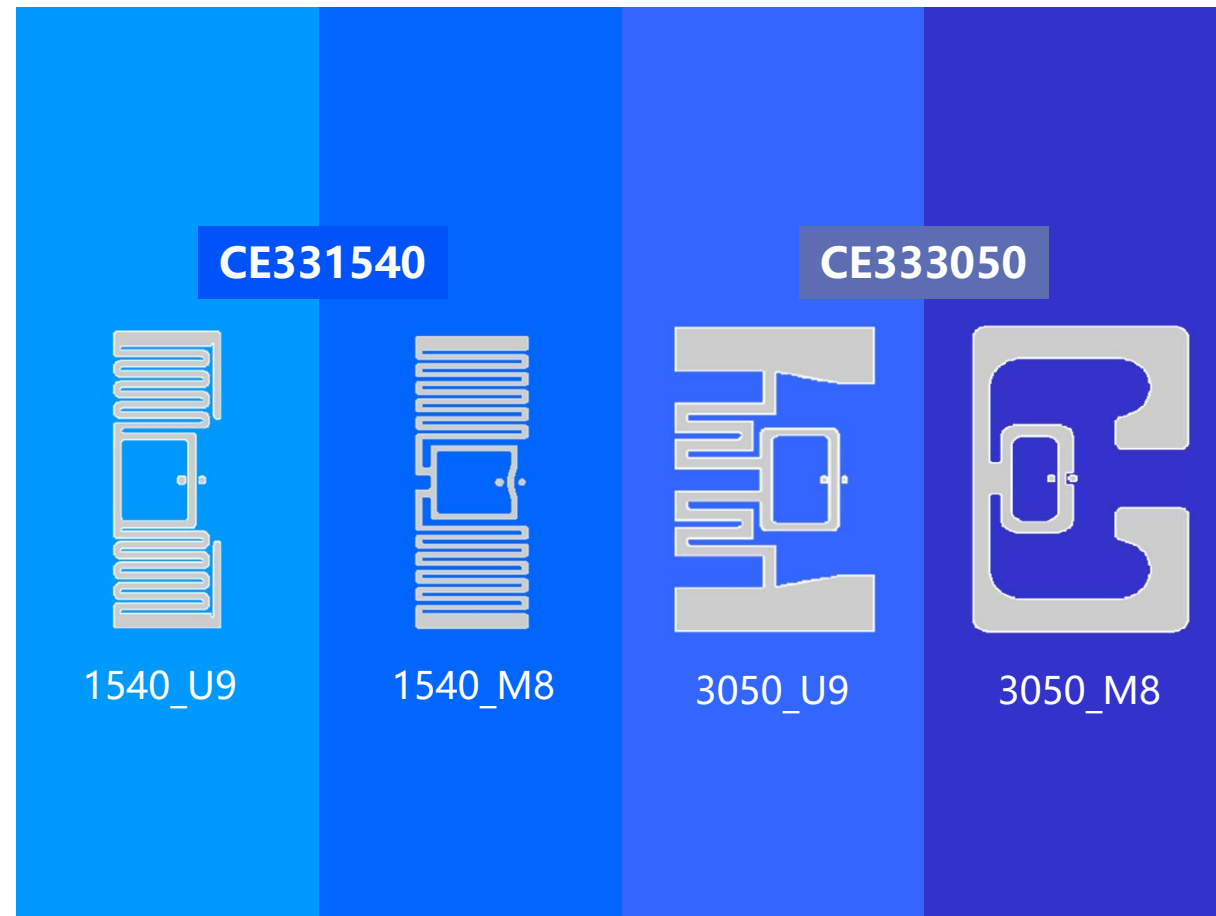

1.0 Billion

RFID Product – Standard Apparel

- Standard designs ideal for apparel
- Support anti-collision and dense reading
- Paper-based eco-friendly inlay also available

RFID Product – Special Apparel

CE341540

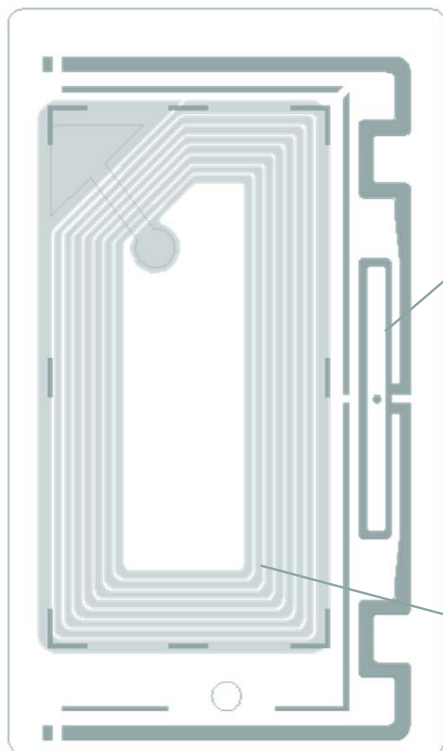

- ❑ Nylon, Satin, etc.
- ❑ Thin and soft
- ❑ Washing resistant

EMPORIO  ARMANI

ICICLE 

Application-Smart Apparel & Retail

CE353870

RFID

H&M

EAS

Alarm

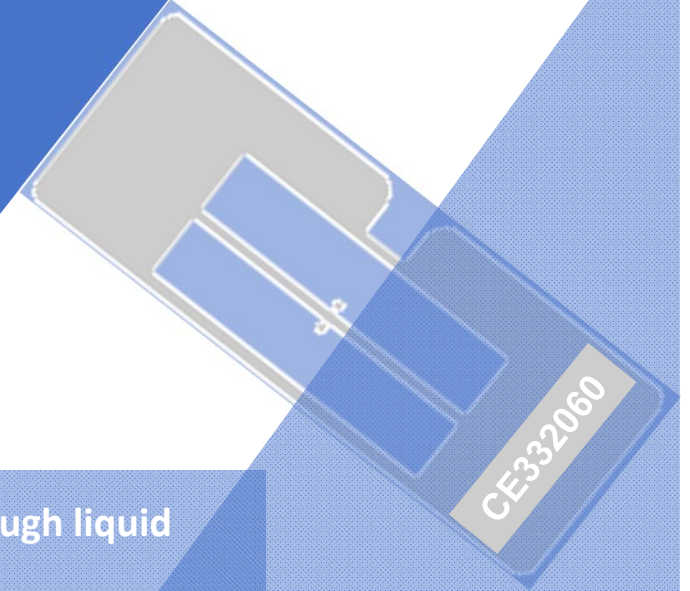

Check

RFID Product – Liquid

- ❑ Effective penetration through liquid packaging.
- ❑ Superior multi-tag readability.
- ❑ Consumer goods like spirit and liquor.
- ❑ Industrial products like blood bag.

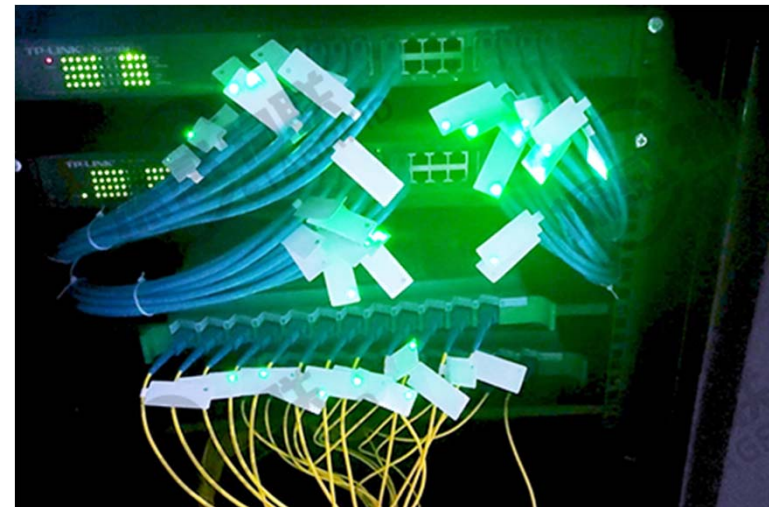

RFID Product – RFID+LED

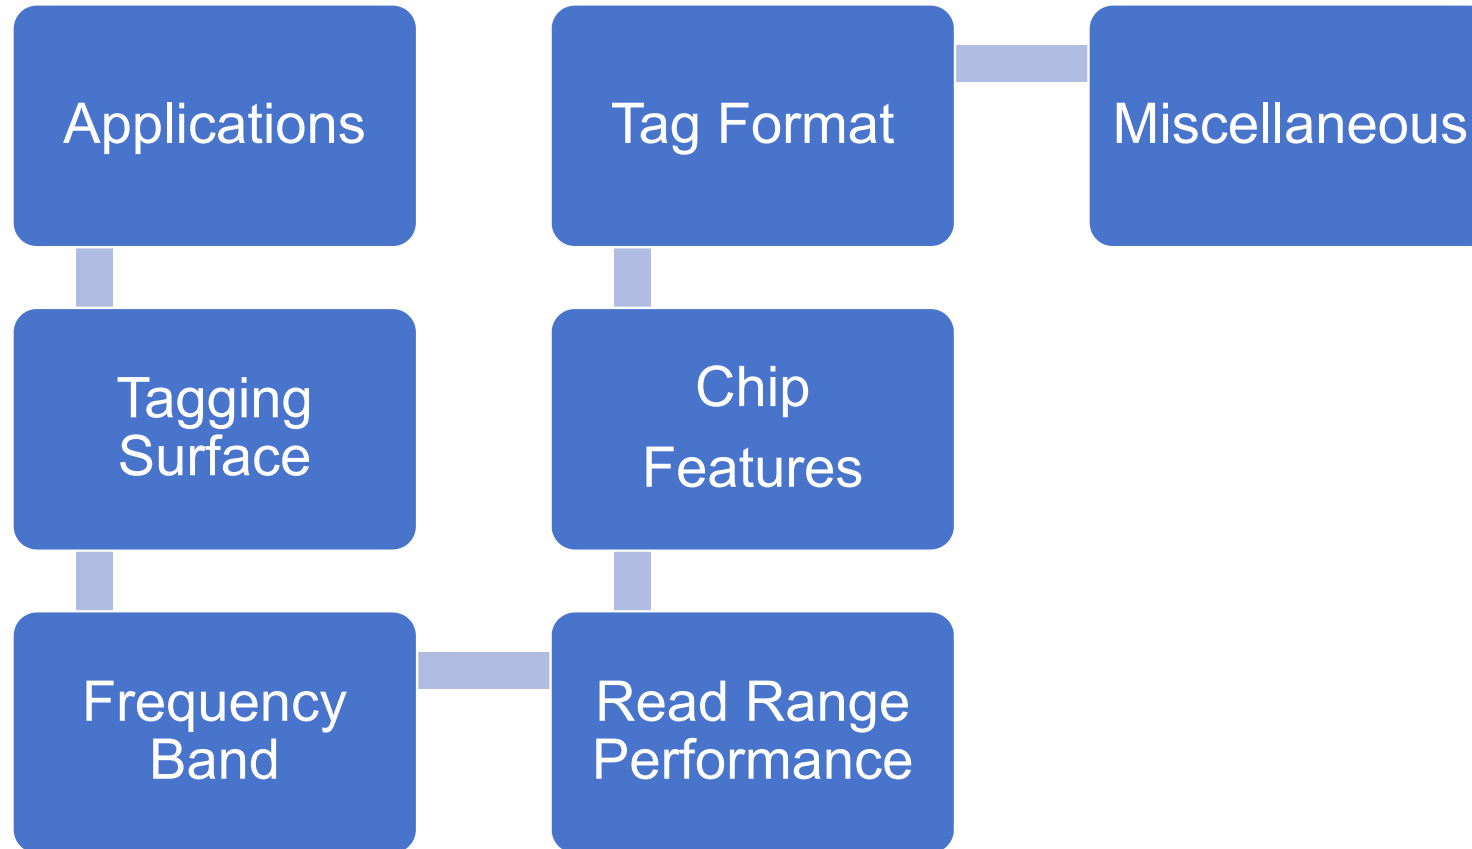

- Light-up by RFID reader
- Enabling quick search

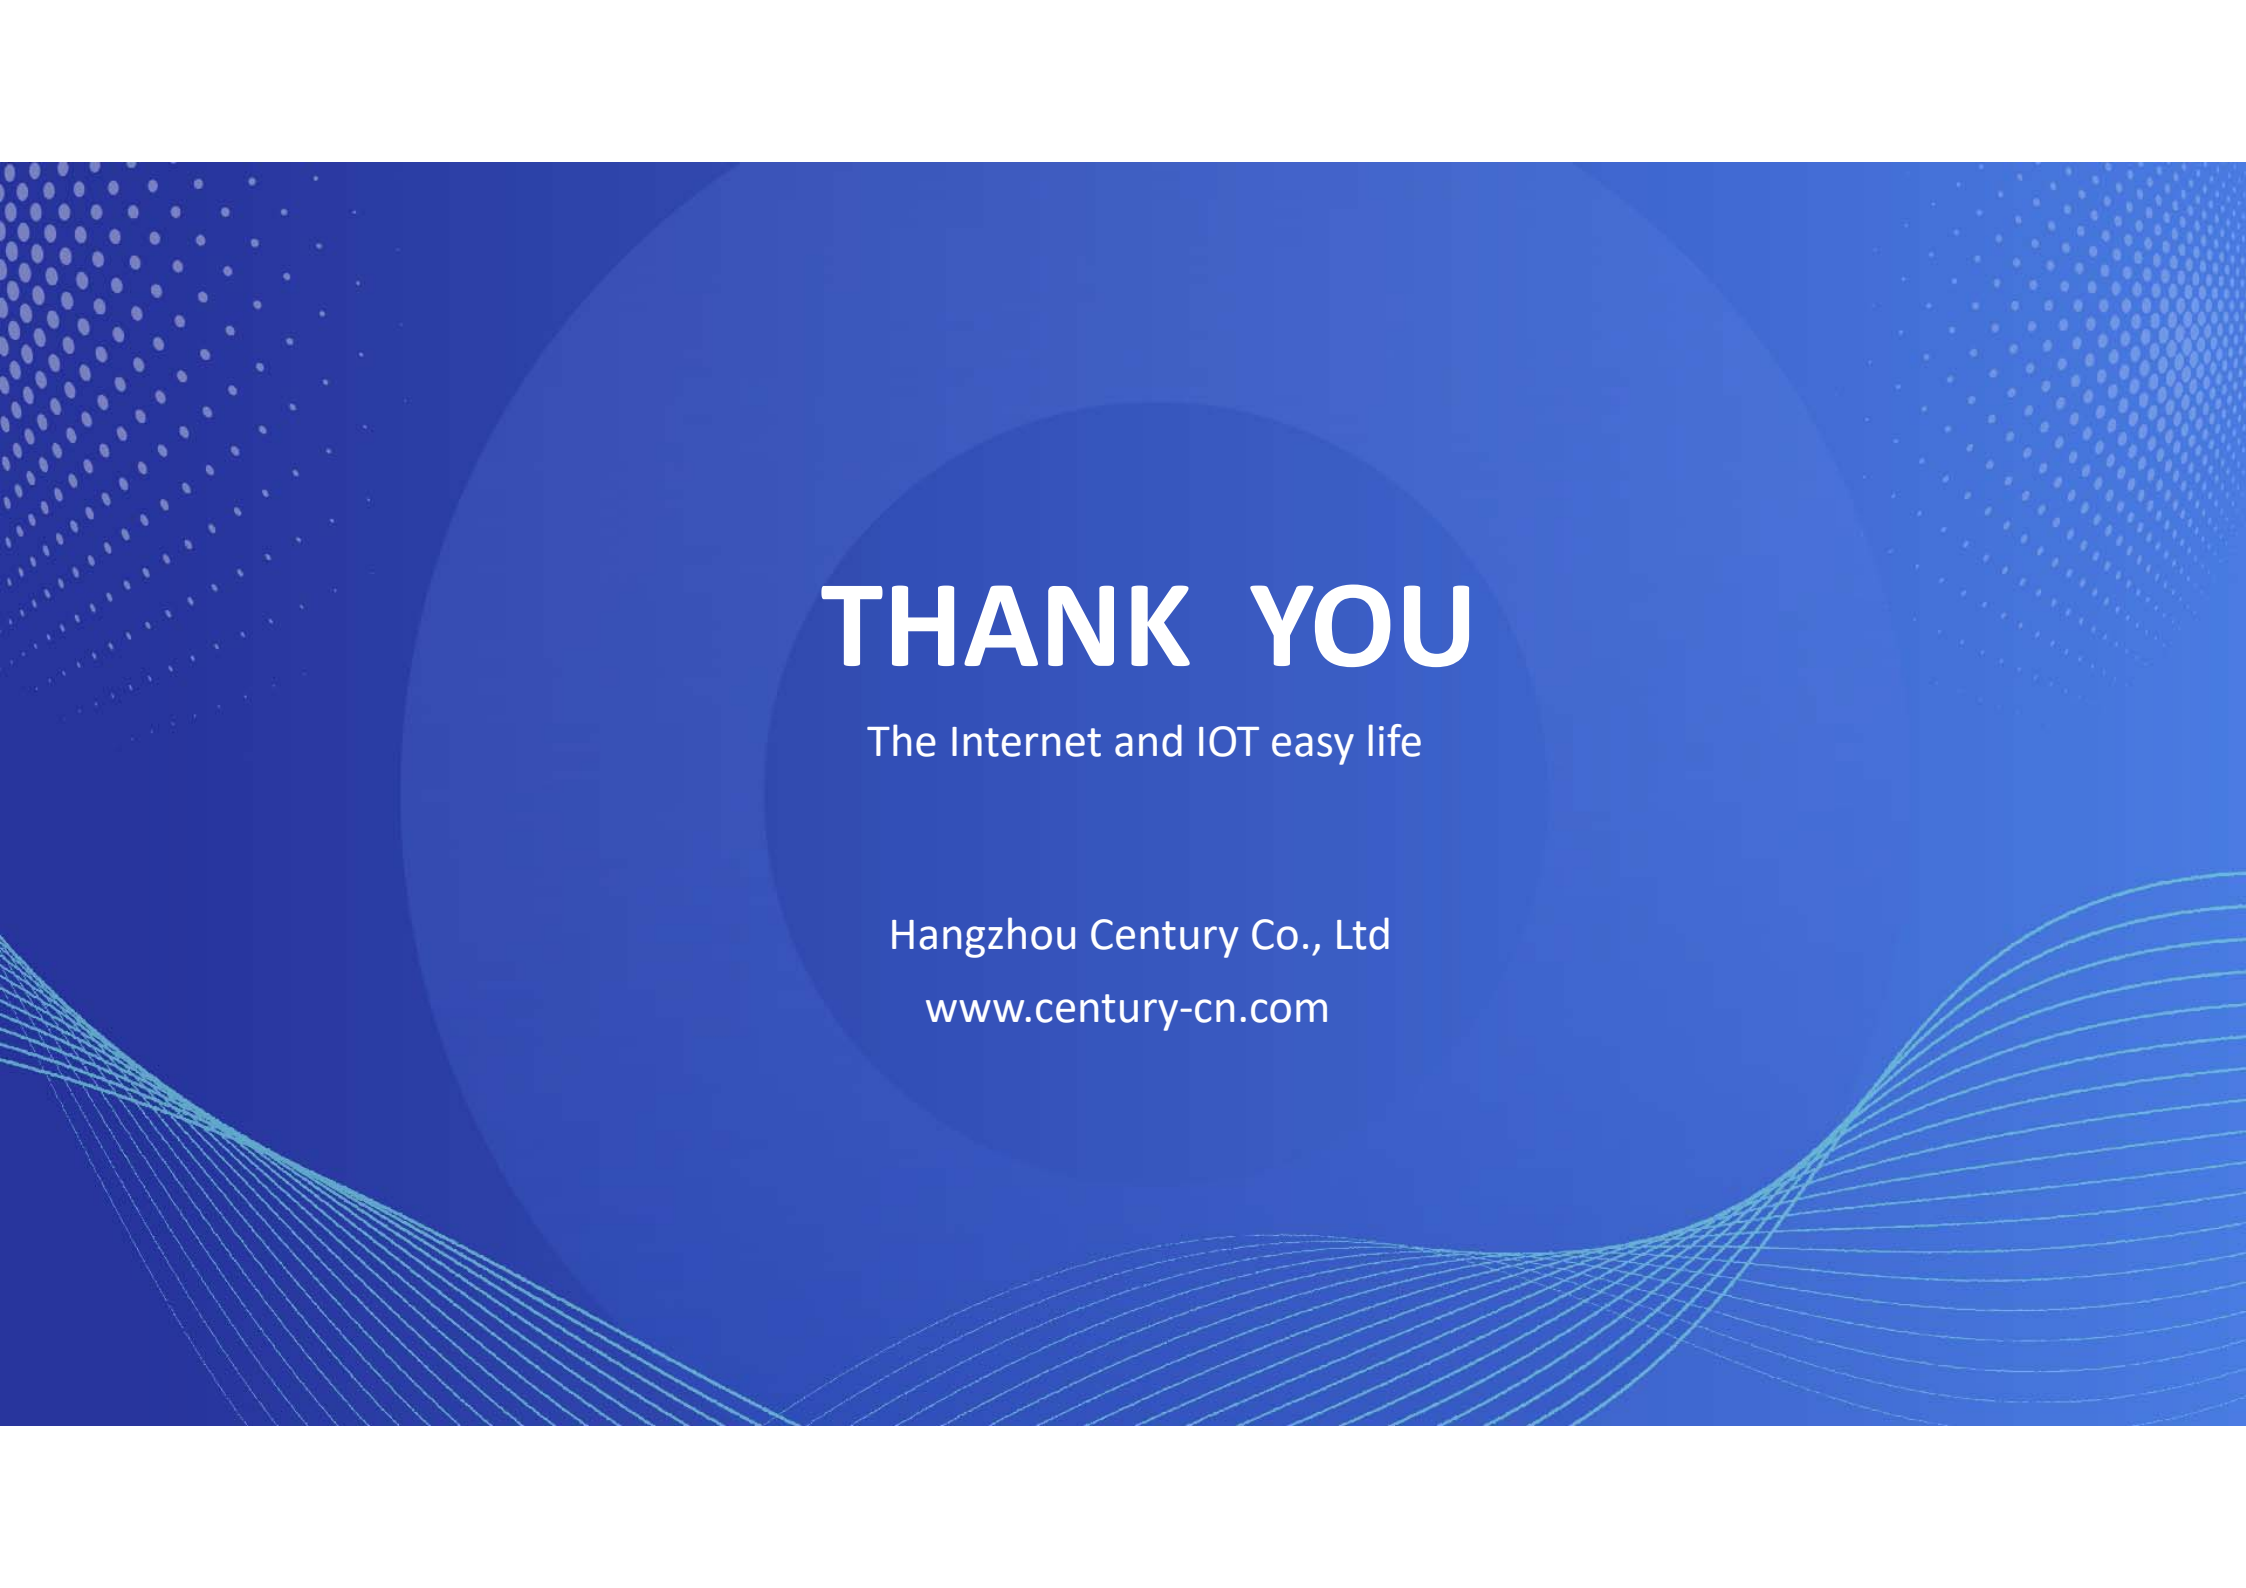

CE330395-LED

- Library
- Bank
- Washing resistant

RFID Selection 101
